

Thank you so much for visiting KN Interiors! This worksheet represents the type of conversation I will have with you on our first meeting. It is intended to make the process less stressful, and more fun and exciting by helping you organize your thoughts in advance so you can have a better conversation with the people involved in your remodel. If this is a shared space, print out additional copies for the others involved and compare ideas! Fill in what you can, and don't worry about anything you don't know the answer to. That's where your pros will help you! I hope to meet with you soon and have the opportunity to create your dream space together. Until then!
